WEEKS TO CHRISTMAS

Shopping Done, You Can Await Santa's Visit Happily

Pork sausage and flapjacks!

'Simmon beer and sweetbread!

Sauer kraut and spareribs are now on tap in Pickens.

"Raise more mules," says the State. And raise something to feed 'em on, also.

Now for the wheezes about turkey hash! It's all right if it is made properly.

Santa Claus will have to get up an excuse this year other than a short cotton crop.

'Twill soon be time to think about those brand new leaves you are going to turn over.

Colonel Roosevelt says he has not a word to say. Send for the doctor, and be quick about it!

Mr. Asquith says the war will not last as long as some people think. No, it won't last forever.

'Tis said "the good die young," and sometimes it seems that the young are the only ones that die good.

We hope the turkeys won't catch this new-fangled foot and mouth disease until after Christmas, anyway.

Petrograd has banned the export of all metals save brass.—The State. The censors furnish all of that.

Since Columbia put the lid on she has captured one lone nigger bootblack, and turned him loose. That lid must leak.

The business depression is melting like snow in the sunshine. It didn't rise even to the dignity of being called a "panic."

Peace was not molested in our own country last week by the seizure and annihilation of an army of turks that pervaded our soil.

"Lost, an automobile crank." This notice appeared in the column of a certain daily. What's his name? We have several located.

"Ten thousand Russians captured by Germans," says a dispatch. My! what a bunch of whippers Germany will have to care for!

A man who has not enough money to put lights on his automobile at night should put a charge on it. That should do some.

There's something the matter with the man's head that won't stand up for his town. He should see a specialist.

Bob of the State has the name of Columbia. How he calls it "Celestia." Smarter? Run!

Speaker Champ Clark will be fat and sleek when he gets back to work in Washington. He has been down South filling up on sweet 'taters and 'possum.

It is thought the farmers have had plenty of advice and that they will diversify with a vengeance. But don't run that in the ground, as was the case with cotton.

The "meanest man" is the man (?) who sells his fellow-man that mean, white lightning-concentrated lye-potash-branch-water mixture, so-called "pure blockade corn liquor."

Rhode Island did not furnish the Thanksgiving turkey for the White House this year. Kentucky had that honor this time, and the President's turk tipped the scales at 41 pounds.

What we want to know is, who was elected walking delegate at the Paragaphers' union, held in Charlotte recently? All the other jobs seem to have been soaked up but that one.

Last week there were 172,000 bales of cotton on ship board in Galveston, Texas, bound for European ports. Hold your cotton some more, Mr. Farmer; the price is sure to advance.

Colonel Bob of the State says: "Far be it from us to say anything about the Paragaphers' union having had a full attendance." We know the attendance was not full, but how about the bunch.

Every time cotton goes up a point the defeated Republican candidate shakes hands with himself and says his party will sure win in 1916. And the funny part of it is that some benighted numbskulls believe it.

What Germany should do is to feed and clothe all of those homeless and starving Belgians without the help of any other nation on earth. She despoiled them and should be made to feed them, if there is any way to do it.

A delegate to the American Federation of Labor convention, in session in Philadelphia, wants a six-hour work day. We know a lot of workmen who would like to work two or three hours each day and be glad of the chance.

Uncle Andy Carnegie, who says he's afraid he won't get to heaven with all his dough, might cough up a million or so for the benefit of the starving Belgians. He'd never miss it and the suffering ones would be thankful.

A Chicago newspaper says the South should diversify its politics, as well as its crops. Not by a dinged sight. We got sick of that sort of diversification along about Reconstruction times. The kind we have now suits us, if Chicago can stand it, and we guess she'll have to.

Just because Mr. Taft goes down to Augusta to play a game of golf once in a while, the Chronicle sees in the ex-president good timber for the Republican nomination in 1916. The Republicans will have to get rid of one T. Roosevelt before Mr. Taft will ever get even a look-in.

"Anybody but Roosevelt to beat Wilson" is the slogan of some Republicans. But Wilson is too deeply entrenched in the hearts of the American people for even the warlike Colonel to beat. The people don't want war, nor do they want a man as president who is in favor of it. So that lets T. R. out of the running.

Robert J. Burdette, poet, author, entertainer and humorist, is dead. He was at one time the paragon of the Burlington (Iowa) Hawkeye, one of the few "funny" papers of that time. Mr. Burdette quit newspaper work and was on the lecture platform for many years, after which he went into the ministry. He made the world better and happier by having been in it. Peace to his ashes.

In the advertisement of A. K. Park, Greenville, last week there was a typographical error. The Sentinel force has been the subject of some satirical remarks by reason thereof, the general supposition being that we are from Arkansas. Be that as it may, there's one thing sure—the people read The Sentinel ads, and the merchant who makes a bid for trade through its columns is sure to get results. Ever try it?

What's the Use?

Prohibition in South Carolina

A STATE-WIDE movement has been launched by the temperance forces to get the coming legislature to submit to the voters the liquor question during 1915. Being a moral question, it should be removed from political entanglements by having the election in an off-year. This really has been one of the temperance failures heretofore. Whenever the issue was made it was by means of the candidacy of some man for governor or the legislature and this necessarily injected politics, which has proven a handicap. It is hoped that the issue will be made next year fair and square on the one question—whiskey or no whiskey. The people are entitled to vote on it. The commonwealth belongs to them and they have a right to a voice in its welfare. More than two-thirds of the state is supposed to be prohibition territory now, and prohibition in sentiment and practice, having heretofore voted out the dispensaries; and it is not right for a small minority to cause the larger number of the citizens to submit to the immoral influences of the liquor traffic. It must go. It has been weighed in the balances and judgment has been pronounced. Nothing can be said in its favor.

Senator O'Dell and Representatives Bolt and Carey have not been interviewed on the subject, but knowing them to be high-minded, sober, temperate, Christian men, it could not be doubted for a moment but that the vote of Pickens county will be cast for the right, and if their votes could enact a law to let the people vote on this most important subject, then the election would be assured.

The great benefits to be derived from voting whiskey out cannot be enumerated. The people of this county know of many blessings and benefits that have come to them since the dispensary was voted out. And we have only partial prohibition for the reason that the national law (known as the Webb law) cannot be made of force in this state because we have dispensaries in several counties yet; therefore we are cursed by the blind tiger, the blockader and the shipper. But if the entire state votes prohibition then the Webb law becomes effective and it will be an easy matter to prevent shipments from other states being made and the blind tiger and blockader will have to seek new fields. However, with only par-

tial prohibition our development has been steady and permanent. In the campaign against the dispensary in this county in 1903 its advocates argued that to drive it out would injure business, increase taxes and depreciate property value. And this argument has long since been proven to be wrong. In 1905 the assessed taxable property of the county was \$3,963,730; this year (1914) it is \$4,310,478, or an increase in nine years of \$346,748 per year.

In this connection it was very much desired to give some comparative statistics from the office of the county superintendent of education showing the increase in attendance upon the public schools, the increase in revenue for school purposes and the many and handsome school buildings erected since the dispensary was voted out in 1905, but the information could not be obtained on account of the sickness of Prof. Hallum. Without accurate information we may be sure that the advance along these lines has been in keeping with the increased taxable wealth of the county, and that we have more and better school houses, more children in school, longer terms and better paid teachers. And all this material and educational advance without the revenue from a dispensary.

If so much good can result from voting out whiskey in one little county, is it not fair to reason and argue that the benefits will be greatly multiplied when this dear old state is in the dry column? Kansas has tried it for many years and her prosperity has gone by leaps and bounds. Five hundred and sixteen thousand children in her public schools and not one of them ever saw a barroom! Her wealth is phenomenal, being the second richest state in the union, with \$1,700 average per capita. Prohibition pays in every respect, and why not have it in South Carolina?

It is greatly to be hoped that our next legislature will pass an act submitting the question to vote on next year. Let the election be held in a year when there is no political strife and present only the one issue to the people to decide. Let there be a fair, honest, open election and we feel sure that South Carolina will take her stand along the side of her sister states which have recently rid themselves of the accursed thing.

The Co-Operative Creamery Plan

Clemson College, November 30.—Farmers living in Pickens county, and especially those living near Easley and Liberty, will be interested in a report of the results obtained to date from the shipping of cream from these localities to Clemson College under the new co-operative creamery plan.

During September there were four farmers only who were shipping cream from Easley and Liberty and a total of 389 pounds of butter fat sent to the college, for which these four farmers received \$136.15. This was at the rate of 35 cents per pound for butter fat, equivalent to 30 cents per pound for butter.

During October the creamery received from Liberty and Easley a total of 641 pounds of butter fat, for which was paid out to the farmers \$224.35, the rate being as before, 35 cents per pound for butterfat. The number of patrons shipping cream increased during October from four to eleven at these two points in Pickens county. It is certain that the plan has been firmly established and that it has met with hearty approval on the part of Pickens county farmers.

The co-operative creamery is a movement which ought to grow far beyond its present size in Easley and Liberty. This is demonstrated by the fact that grocersmen at both points each week ship large quantities of cheap butter to renovating factories. They are not in a position to offer more than twenty cents in trade for this butter and, in most cases, do not wish to handle it even then. If the people producing this cheap butter would join the co-operative creamery movement begun at Clemson College and make ship cream instead of making cheap butter they would find that the check coming in from this source every month would aid considerably in untying some of their present financial tangles.

Any farmer who is interested in this method of disposing of his dairy surplus is invited to communicate with the dairy division of Clemson College.

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system by entering the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. E. J. Cheney & Co., Toledo, O., contains no mercury, and is entirely safe, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in what was the matter. I told of my condition and how nothing I took seemed to do me any good. Vinol was suggested. I got a bottle and before it was half gone I could eat and sleep well. Continued its use and now my friends say I look ten years younger, and I am well, healthy and strong. I wish I could induce every tired-out, worn-out, nervous woman to take Vinol.—Mrs. HARRIET GALE, Monmouth, Ill.

Physically and Mentally Worn Out—Tells How Nervous and Crying Spells Were Ended by Vinol.

Monmouth, Ill.—"I was weak, worn-out and nervous. I had no appetite and was getting so thin and discouraged, one day I just broke down and cried when a friend came in and asked me what was the matter. I told of my condition and how nothing I took seemed to do me any good. Vinol was suggested. I got a bottle and before it was half gone I could eat and sleep well. Continued its use and now my friends say I look ten years younger, and I am well, healthy and strong. I wish I could induce every tired-out, worn-out, nervous woman to take Vinol.—Mrs. HARRIET GALE, Monmouth, Ill.

There are many over-worked, tired-out, nervous women in this vicinity who need the strengthening, tissue building, and vitalizing effects of Vinol, our delicious cod liver and iron tonic, and so sure are we that it will build them up and make them strong that we offer to return their money if it fails to benefit.

Vinol is a delicious preparation of the extract of cod liver oil and peptonate of iron and contains no oil.
